QualiSage

The Ultimate Service
for Your Unique Website

WE COMBINED

AND PACKAGED ALL THE SERVICES
WE PROVIDE TO MAKE ~~GREAT~~ WEBSITES

AWESOME

01

PAGES & COMPONENTS
REUSABLE ELEMENTS ACROSS ALL YOUR PAGES

Use components as building blocks for your pages.

**You decide** how a page looks by deciding which components to use.

Rearrange components and create as many pages as you like.

Optimize your content and get it ready for search engines.

Customize titles, descriptions, and URL slugs with a few clicks.

Integrate rich data snippets to instruct search engines about your data structure.

02

MULTIPLE LANGUAGES

Translate your website to multiple languages.
Content can be different based on the selected language.

CONTACT FORM

RECEIVE MESSAGES FROM YOUR CUSTOMERS DIRECTLY VIA EMAIL UPON SUBMISSION

Use either **a 3rd-party service** like Formspree or GetForm and automate the sending process...

... or use one of your existing email accounts and we can help you set it up **via SMTP** protocol as an alternative.

03

BLOG & NEWS

ENGAGE WITH YOUR AUDIENCE BY PROVIDING THEM WITH AWESOME CONTENT AND REGULAR UPDATES

List of articles with search capabilities and paging or infinite (feed-like) scroll.

Separate page for each article, including buttons to share it on popular social media.

Blog articles are **enhanced with rich snippets** that search engines like Google understand, increasing the chances of ranking your content higher.

UNIQUE DESIGN

NO TEMPLATES, NO READY-TO-USE COMPONENTS
YOUR WEBSITE WITH YOUR BRANDING & TYPOGRAPHY

05

Responsive from day one. Fits perfectly on all devices - big or small, including mobile, tablet, and desktop.

Your brand is your identity. The website is aligned with your branding guidelines about colors, typography, and overall vibe.

We include **up to 2 free design iterations** in our basic price to help you decide on the main design concept and components.

SMOOTH ANIMATIONS

INSPIRED BY PHYSICS AND NATURE
A USER EXPERIENCE THAT JUST ROCKS

Gentle & soft animations that are soothing to the eye, feeling almost like silk gliding on top of calm water.

Nature-inspired animations that feel as real as possible. No shaking elements, or flipping cards. No flashing texts.

06

MODERN ADMIN PANEL

POWERED BY STRAPI.IO - THE LEADING HEADLESS CMS

07

A **headless**, open-source, customizable, and stable **API solution** to power your beautiful website. **Simple and quick** content management via a modern user interface.

Opt-in for a **secure platform** with little to no security vulnerabilities and one that doesn't get hacked constantly like websites built with WordPress.

We include **a free guiding session** over a video conference call to teach you how to work with Strapi and fill in your content.

REACT-BASED USER INTERFACE

BUILT ON TOP OF NEXT.JS – THE REACT FRAMEWORK FOR HIGHLY-PERFORMANT WEBSITES AND APPS

Fast (almost instant) page loading.

Includes **automatic image optimization** which resizes images and makes for a more snappy experience on smaller devices.

React is a stable technology **used by large companies** like Facebook (now Meta), Airbnb, Uber, Netflix, and many others.
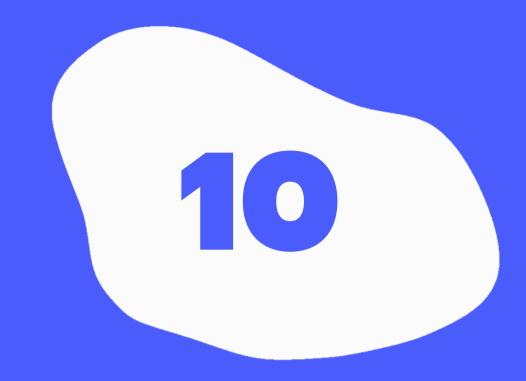

08

CONSULTING & SUPPORT
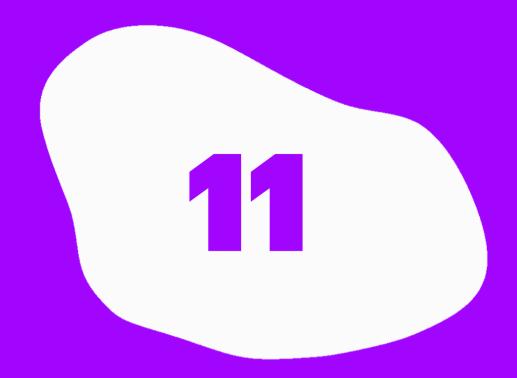

YOU HAVE FOUND YOURSELF A RELIABLE PARTNER

09

We will help you with **everything DevOps-related**. Configuring the hosting, publishing your website, and setting up automatic continuous deployment - let us handle those for you.

Don't understand something related to managing your content? No worries, we got you covered - **just ask**!

10

2 WEEKS OF FREE MAINTENANCE

After the launch of your website, we will fix any bugs that occur or inconsistencies you see for free.

11

QA TESTING

We take **software quality** very seriously and as part of our quality assurance process our team tests on various devices, browsers, and operating systems.

Devices (mobile, tablet, and desktop)
Browsers (Chrome, Safari, Firefox, Edge)
Operating systems (Windows, macOS, iOS, Android)

* We guarantee support for the last 3 major versions of each browser.
Note that there might be open and known browser bugs that we can't control.

THE PROCESS

1. Several iterations of **design and discussions**.
2. **Implementation** phase begins and during which your website is being built.
3. You get a sneak peek (**demo meeting**) of the progress every week.
4. Meeting in which we'll guide you on **how to use the CMS**.
5. **Testing** on different browsers, devices, and operating systems.
6. **Final demo** meeting for verification.
7. **Publishing** your website to the cloud.

13

TIME FRAME

The process can take anywhere **between 4 weeks to 8 weeks (or even more)** in some cases, depending on the number of design iterations needed, or the complexity of the implementation.

PRICING

STARTING FROM €6000

It all depends on the number of design iterations and components that need to be implemented.

In rare cases, if the website includes a more complex functionality or has custom 3D elements (like ours), the price can even go up to 20k or 25k.

15

PAYMENT PLAN

40% BEFORE STARTING THE WORK

20% AFTER THE DESIGN IS COMPLETED

20% BEFORE THE TESTING PHASE

20% BEFORE THE OFFICIAL LAUNCH

We create a proforma invoice, then after receiving the payment we send you back the original invoice.

16

HOSTING

OUR RECOMMENDATION

Hosting for Next.js on Vercel: **$20/month**

CMS hosting on Render.com: **$25/month**

Database hosting on Render.com: **$20/month**

CDN for images on AWS (S3 + CloudFront): Generous **free** plan

** You can always use other hosting solutions
but we can't guarantee stability and performance.*

17

ONGOING SUPPORT

1 DAY = €440

We can offer you ongoing support & maintenance after your initial free month of maintenance expires. It comes with SLAs for response times and guarantees our team will have dedicated time for you.

In most cases 1-2 days per month is enough.

THANK YOU

LOOKING FORWARD TO MEETING YOU.
